WORK EXPERIENCE

February 2022 - November 2023

FullStack Web Developer

KOLO S.A.

KOLO is a set of digital tools (ERP) that allows small and medium-sized entrepreneurs to grow, innovate, and empower their business in an accessible and customizable way.

My contributions:

- I developed modules such as: Inventories, Plans, Points of Sale, etc.; alongside a small team of developers.
- I collaborated in improving the development process by implementing coding and deploying tools.
- I promoted the implementation of good development and UI/UX practices aimed at offering the best user experience.

EDUCATION

Semester: 10 - Graduation: 2024

Science and Systems Engineering

Universidad de San Carlos de Guatemala

- Academic excellence
- Organizing member of the Congress of Science and Systems Students COECYS
- Professional English certification from Calusac
